

OFIR AVIRAM

Mobile & Web Systems Analyst

Requirements, User Journeys, UX and UI Flows and End-to-End Delivery

Hod Hasharon, Israel | +972-58-707-8708 | ofir.aviram@gmail.com | linkedin.com/in/aviramo

PROFESSIONAL SUMMARY

Mobile and Web Systems Analyst with 15+ years of experience, most of them spent analyzing and specifying web and mobile applications for large organizations.

Works from the user inward: requirements gathering, user journeys, screen and UX and UI flows, business logic, data models, API contracts between a client and the services behind it, and acceptance testing through to production.

Recently took a mobile product from concept to the app stores end to end, and brings that hands-on product view back into enterprise analysis work, using Node.js, TypeScript, Supabase and AI-assisted development tools.

CORE EXPERTISE

MOBILE AND WEB SYSTEMS ANALYSIS: Analyzing and specifying web applications, mobile applications and the services behind them, from the first requirement through the user journey and the screens to the data model and the interfaces

REQUIREMENTS AND SPECIFICATION: Requirements Gathering, Functional and Technical Specifications, Use Cases and User Stories, Business Process Modeling, Acceptance Criteria

PRODUCT AND INTERFACE: User Journeys, Screen Flows, UX and UI Specification, Field-Level Behavior, Permissions and States, Error and Edge Cases

DATA AND INTERFACES: Data Modeling, SQL, REST APIs, Client and Server Contracts, Integration Flows, ETL

DELIVERY: Stakeholder Management, Cross-Functional Leadership, Testing, UAT, Production Deployment, Agile Delivery

SELECTED PRODUCT EXPERIENCE

PRODUCT OWNER & MOBILE SYSTEMS ANALYST

2026 - Present

Once | Self-Employed

- Specified a mobile product end to end: user journeys, screen flows, states, permissions and the edge cases the app has to answer for
- Modeled the data, the business logic and the real-time processes behind the screens, and defined the contracts between the app and its backend
- Analyzed and specified authentication, location services, matching, real-time chat, credit mechanisms, social Circles and notifications
- Implemented what was specified with Node.js, TypeScript, Supabase, PostgreSQL, Edge Functions, RPC functions and APIs, so the specification was checked against a working system daily
- Used Claude and ChatGPT for prototyping, coding, debugging, refactoring, problem-solving and test-data generation
- Prepared and submitted production releases for Google Play and the Apple App Store

PROFESSIONAL EXPERIENCE

SENIOR SYSTEMS ANALYST | WEB APPLICATIONS & INTEGRATIONS

2025 - 2026

Tidhar Group | Israel | Hybrid

- Analyzed and specified web-based business processes, automations and integrations across Salesforce, Priority ERP and Workato
- Translated business requirements into functional and technical specifications, down to screens, fields, validations and user flows
- Designed data mappings, business logic, integration flows, system interfaces and SQL and ETL processes
- Coordinated business stakeholders, IT teams, vendors, testing and production deployment

SENIOR SYSTEMS ANALYST | WEB PORTALS & IDENTITY PROCESSES

2021 - 2025

Brillix | Israel | Remote

- Analyzed and specified web-based Identity Management solutions for Clalit Health Services, Migdal, Ayalon and LivePerson
- Wrote functional and technical specifications for self-service screens, approval flows, identity processes, interfaces and data transformations
- Designed business logic, data mappings, ETL processes and the interfaces between the portal and the systems behind it
- Led delivery across cybersecurity, DBA, DevOps, infrastructure, IT and business teams

SYSTEMS ANALYST | WEB SOLUTION, UX AND UI FLOWS

2020 - 2021

Tel Aviv-Yafo Municipality

- Led the analysis and design of a web solution connecting municipal departments and automating cross-organizational workflows
- Modeled business processes, data structures, user journeys and UX and UI flows, screen by screen
- Designed SQL and SSIS integrations and coordinated users, development, DBA, QA and UAT

WEB SYSTEMS ANALYST & TECHNICAL LEAD | IDENTITY MANAGEMENT

2017 - 2020

Amdocs | Israel

- Translated business and security requirements into technical processes, business logic, screens, interfaces and integrations
- Specified system workflows and data flows and guided a Java and JSP web development team
- Coordinated development, cybersecurity, infrastructure, DBA, DevOps, testing and production delivery

SYSTEMS ANALYST & IMPLEMENTATION CONSULTANT | WEB IDENTITY PLATFORMS

2014 - 2017

ProLink Identity Management Architects | Israel

- Independently analyzed, customized and implemented the Aveksa web platform for Harel, Migdal, Phoenix and Amdocs
- Owned the application-level analysis and implementation, excluding infrastructure
- Specified business logic, workflows, rules, approval screens, data mappings and synchronization processes
- Built integrations with enterprise systems, databases and directories and led testing, deployment and production support

SYSTEMS ANALYST & DEVELOPER | ENTERPRISE BILLING SYSTEMS

2008 - 2014

Varonis | Israel

- Analyzed, developed and maintained an enterprise billing platform using Microsoft SQL Server, Microsoft Access and VBA
- Translated business requirements into database queries, reports, automations and system enhancements
- Investigated production issues and worked directly with finance and operational stakeholders

TECHNICAL SKILLS

WEB AND MOBILE: Node.js, TypeScript, JavaScript, REST APIs, Supabase, Edge Functions, RPC Functions, Java, JSP, Google Play, Apple App Store

ANALYSIS AND DATA: SQL, Microsoft SQL Server, PostgreSQL, Data Modeling, ETL, SSIS, Microsoft Access, VBA, Git

ENTERPRISE PLATFORMS: Salesforce, Priority ERP, Workato, Aveksa, IAM, IDM, IGA

AI AND DELIVERY: Claude, ChatGPT, AI-Assisted Development, Rapid Prototyping, Jira, Agile, UAT

EDUCATION

PRODUCT MANAGEMENT PROGRAM

Product Experts | 2021

B.SC. INDUSTRIAL ENGINEERING AND MANAGEMENT

Information Systems Specialization

Ben-Gurion University of the Negev | 2004 - 2008

MILITARY SERVICE

COMBAT SOLDIER AND COMMANDER

Combat Engineering Corps | 1999 - 2002
