OFIR AVIRAM

Solution Architect | Senior Systems Analyst
Enterprise Applications, Integrations and End-to-End Product

Hod Hasharon, Israel | +972-58-707-8708 | ofir.aviram@gmail.com | linkedin.com/in/aviramo

PROFESSIONAL SUMMARY

Solution Architect and Senior Systems Analyst with 15+ years of experience designing end-to-end solutions for enterprise applications, system integrations and IAM and IDM systems.

Translating a business need into a solution architecture: business logic, system interfaces, data model and data flows, and carrying it through to production.

Alongside that, end-to-end ownership of a product, from an idea to a release in both app stores, with Node.js, TypeScript, Supabase and AI-assisted development tools.

CORE EXPERTISE

SOLUTION ARCHITECTURE: End-to-End Solution Design, Enterprise Applications, Integration Architecture, Business Logic, System Interfaces, Data Flows

ANALYSIS AND SPECIFICATION: Requirements Gathering, Functional and Technical Specifications, High-Level Design (HLD), Detailed Design (DD), Business Process Modeling, UAT

PLATFORMS AND INTEGRATION: Salesforce, Priority ERP, Workato, Aveksa, IAM, IDM, IGA, REST APIs, ETL, SSIS

DATA AND DEVELOPMENT: SQL, Microsoft SQL Server, PostgreSQL, Node.js, TypeScript, JavaScript, Supabase, Edge Functions, RPC Functions, Java, JSP, Git

PRODUCT AND DELIVERY: End-to-End Product Ownership, Claude, ChatGPT, AI-Assisted Development, Agile, Jira, Production Deployment

SELECTED PRODUCT EXPERIENCE

PRODUCT OWNER & AI-POWERED FULL-STACK DEVELOPER

2026 - Present

Once | Self-Employed

- Full ownership of Once from concept to a production mobile product: product definition, UX, architecture, development, testing and the releases
- Designed the architecture behind it: the data model, the business logic, the backend workflows, the permission model and the real-time processes
- Built authentication, location services, matching, real-time chat, credit mechanisms, social Circles and notifications with Node.js, TypeScript, Supabase, PostgreSQL, Edge Functions, RPC functions and APIs
- Used Claude and ChatGPT for prototyping, coding, debugging, refactoring and test-data generation, and prepared and submitted the production releases for Google Play and the Apple App Store

PROFESSIONAL EXPERIENCE

SENIOR SYSTEMS ANALYST | INTEGRATION & SOLUTION DESIGN

2025 - 2026

Tidhar Group | Israel | Hybrid

- Responsible for the design and delivery of cross-system business processes, automations and integrations across Salesforce, Priority ERP and Workato, from the business requirement through to production
- Designed the integration architecture: data mappings, business logic, integration flows, system interfaces and SQL and ETL processes
- Translated business requirements into functional and technical specifications, and coordinated business stakeholders, IT teams and vendors through testing and implementation

SENIOR SYSTEMS ANALYST | IDM SOLUTION DESIGN
2021 - 2025

Brillix | Israel | Remote

- Responsible for the design and implementation of enterprise Identity Management solutions at Clalit Health Services, Migdal, Ayalon and LivePerson
- Designed the solution end to end: identity processes, interfaces, data transformations, data mappings and ETL processes, alongside the functional and technical specifications for them
- Led delivery across cybersecurity, DBA, DevOps, infrastructure, IT and business teams

SYSTEMS ANALYST | WEB SOLUTIONS & PROCESS AUTOMATION
2020 - 2021

Tel Aviv-Yafo Municipality

- Led the analysis and design of a Web solution connecting municipal departments and automating cross-organizational workflows
- Modeled the processes, the data structures and the user journeys, and designed the SQL and SSIS integrations through to acceptance testing

IDENTITY MANAGEMENT SYSTEMS ANALYST & TECHNICAL LEAD
2017 - 2020

Amdocs | Israel

- Designed the organization's identity management solution, from business and security requirements through to processes, business logic, interfaces and integrations
- Designed system workflows and data flows, and guided a Java and JSP development team through to production delivery

IDM IMPLEMENTATION CONSULTANT & SOLUTION DEVELOPER
2014 - 2017

ProLink Identity Management Architects | Israel

- Owned the solution design and implementation at application level, excluding infrastructure, of the Aveksa IAM and Identity Governance platform at Harel, Migdal, Phoenix and Amdocs
- Built business logic, workflows, rules, approval processes, data mappings and synchronization processes, and the integrations with enterprise systems, databases and directories

SOFTWARE DEVELOPER | ENTERPRISE BILLING SYSTEMS
2008 - 2014

Varonis | Israel

- Developed and maintained an enterprise billing platform using Microsoft SQL Server, Microsoft Access and VBA
- Turned business requirements into database queries, reports, automations and system enhancements, working directly with finance and operational stakeholders

---

EDUCATION AND SERVICE

PRODUCT MANAGEMENT PROGRAM
Product Experts | 2021

B.SC. INDUSTRIAL ENGINEERING AND MANAGEMENT
Information Systems Specialization
Ben-Gurion University of the Negev | 2004 - 2008

COMBAT SOLDIER AND COMMANDER
Combat Engineering Corps | 1999 - 2002
