

OFIR AVIRAM

Solution Architect | Senior Systems Analyst

Enterprise Applications, Integrations & AI-Assisted Product Development

Hod Hasharon, Israel | +972-58-707-8708 | ofir.aviram@gmail.com | linkedin.com/in/aviramo

PROFESSIONAL SUMMARY

Solution Architect and Senior Systems Analyst with 15+ years of experience designing enterprise applications, system integrations, IAM and IDM solutions and business-process automation.

Strong in requirements analysis, functional and technical specifications, business logic, data flows, SQL, ETL, APIs and end-to-end production delivery.

Combines extensive enterprise systems experience with hands-on product development using Node.js, TypeScript, Supabase and AI-assisted development tools.

CORE EXPERTISE

SOLUTION DESIGN: End-to-End Solution Design, Enterprise Applications, Integration Architecture, Business Logic, System Interfaces, Data Flows

SYSTEMS ANALYSIS: Requirements Gathering, Functional and Technical Specifications, Business Process Modeling, Data Modeling, UAT

DELIVERY: Stakeholder Management, Cross-Functional Leadership, Testing, Troubleshooting, Production Deployment, Agile Delivery

SELECTED PRODUCT EXPERIENCE

PRODUCT OWNER & AI-POWERED FULL-STACK DEVELOPER

2026 - Present

Once | Self-Employed

- Took Once from concept to a production-ready mobile product, owning product definition, UX, architecture, development, testing and release
- Designed the database model, business logic, backend workflows, permissions and real-time processes
- Built authentication, location services, matching, real-time chat, credit mechanisms, social Circles and notifications
- Developed with Node.js, TypeScript, Supabase, PostgreSQL, Edge Functions, RPC functions and APIs
- Used Claude and ChatGPT for prototyping, coding, debugging, refactoring, problem-solving and test-data generation
- Prepared and submitted production releases for Google Play and the Apple App Store

PROFESSIONAL EXPERIENCE

SENIOR SYSTEMS ANALYST | INTEGRATION & SOLUTION DESIGN

2025 - 2026

Tidhar Group | Israel | Hybrid

- Led the analysis and delivery of enterprise processes, automations and integrations across Salesforce, Priority ERP and Workato
- Translated business requirements into functional and technical specifications
- Designed data mappings, business logic, integration flows, system interfaces and SQL and ETL processes
- Coordinated business stakeholders, IT teams, vendors, testing and production deployment

SENIOR SYSTEMS ANALYST | IDM SOLUTION DESIGN

2021 - 2025

Brillix | Israel | Remote

- Designed and implemented enterprise Identity Management solutions for Clalit Health Services, Migdal, Ayalon and LivePerson
- Created functional and technical specifications for identity processes, interfaces, data transformations and integrations
- Designed business logic, data mappings, ETL processes and system interfaces
- Led delivery across cybersecurity, DBA, DevOps, infrastructure, IT and business teams

SYSTEMS ANALYST | WEB SOLUTIONS & PROCESS AUTOMATION

2020 - 2021

Tel Aviv-Yafo Municipality

- Led the analysis and design of a web solution connecting municipal departments and automating cross-organizational workflows
- Modeled business processes, data structures, user journeys and UX and UI flows
- Designed SQL and SSIS integrations and coordinated users, development, DBA, QA and UAT

IDENTITY MANAGEMENT SYSTEMS ANALYST & TECHNICAL LEAD

2017 - 2020

Amdocs | Israel

- Translated business and security requirements into technical processes, business logic, interfaces and integrations
- Designed system workflows and data flows and guided a Java and JSP development team
- Coordinated development, cybersecurity, infrastructure, DBA, DevOps, testing and production delivery

IDM IMPLEMENTATION CONSULTANT & SOLUTION DEVELOPER

2014 - 2017

ProLink Identity Management Architects | Israel

- Independently customized and implemented the Aveksa IAM and Identity Governance platform for Harel, Migdal, Phoenix and Amdocs
- Owned the application-level solution design and implementation, excluding infrastructure
- Designed business logic, workflows, rules, approval processes, data mappings and synchronization processes
- Built integrations with enterprise systems, databases and directories and led testing, deployment and production support

SOFTWARE DEVELOPER | ENTERPRISE BILLING SYSTEMS

2008 - 2014

Varonis | Israel

- Developed and maintained an enterprise billing platform using Microsoft SQL Server, Microsoft Access and VBA
- Translated business requirements into database queries, reports, automations and system enhancements
- Investigated production issues and worked directly with finance and operational stakeholders

TECHNICAL SKILLS

PLATFORMS AND INTEGRATION: Salesforce, Priority ERP, Workato, Aveksa, IAM, IDM, IGA, REST APIs, ETL, SSIS

DATA AND DEVELOPMENT: SQL, Microsoft SQL Server, PostgreSQL, Node.js, TypeScript, JavaScript, Supabase, Edge Functions, RPC Functions, Java, JSP, Git, Microsoft Access, VBA

AI AND DELIVERY: Claude, ChatGPT, AI-Assisted Development, Rapid Prototyping, Jira, Agile, UAT

EDUCATION

PRODUCT MANAGEMENT PROGRAM

Product Experts | 2021

B.SC. INDUSTRIAL ENGINEERING AND MANAGEMENT

Information Systems Specialization

Ben-Gurion University of the Negev | 2004 - 2008

MILITARY SERVICE

COMBAT SOLDIER AND COMMANDER

Combat Engineering Corps | 1999 - 2002
