

OFIR AVIRAM

Systems Analyst | Web, Mobile & Core Systems

Requirements, Functional and Technical Specifications, Interfaces and End-to-End Delivery

Hod Hasharon, Israel | +972-58-707-8708 | ofir.aviram@gmail.com | linkedin.com/in/aviramo

PROFESSIONAL SUMMARY

Systems Analyst with 15+ years of experience, most of them analyzing and specifying Web and Mobile systems, organizational core systems and the interfaces between them.

Gathers business requirements and writes what follows: functional and technical specifications, high level and detailed design, data structures, interface and web service definitions, SQL queries and acceptance criteria.

Carries it to production: task and project tracking, guiding development teams, working with business users, UX and UI, QA and vendors, through acceptance testing, implementation and support, in Agile delivery.

CORE EXPERTISE

REQUIREMENTS AND SPECIFICATION: Business Requirements Gathering, Functional and Technical Specifications, High Level and Detailed Design, Use Cases, Acceptance Criteria

INTERFACES AND DATA: Core Systems: ERP, Billing, Identity, System Interfaces, Web Services, REST APIs, Integration of Existing and New Systems, Data Structure Design, SQL Queries, ETL and Scheduled Jobs

PRODUCT AND INTERFACE: User Journeys, Screen Flows, UX and UI Specification, Permissions, States and Edge Cases

DELIVERY AND PROJECT TRACKING: Task and Project Tracking, Development Teams, Business Users, QA and Vendors, Testing and UAT, System Implementation, Production Deployment, Maintenance and Upgrades, Agile, Jira

PROFESSIONAL EXPERIENCE

MOBILE SYSTEMS ANALYST

2026 - Present

Once | Self-Employed

- Specified a mobile application end to end: business requirements, user journeys, screen flows, states, permissions and edge cases
- Wrote the high level and detailed design for authentication, location services, matching, real-time chat, credit mechanisms, social Circles and notifications: data structures, business logic and the service contracts between the app and its backend
- Planned and tracked the work as a backlog, from each requirement through to acceptance testing against it
- Worked hands-on in the stack it runs on, Node.js, TypeScript, Supabase, PostgreSQL and REST APIs, which keeps a specification something a developer can build and a tester can check

SENIOR SYSTEMS ANALYST | WEB APPLICATIONS & CORE SYSTEM INTERFACES

2025 - 2026

Tidhar Group | Israel | Hybrid

- Analyzed and specified Web-based business processes, automations and interfaces between core systems on Salesforce, Priority ERP and Workato
- Gathered business requirements and wrote functional and technical specifications, down to screens, fields, validations and acceptance criteria
- Designed data structures, data mappings, business logic, integration flows, service interfaces and scheduled SQL and ETL jobs
- Tracked tasks and timelines across business users, IT teams and vendors, and led testing, implementation and production deployment

SENIOR SYSTEMS ANALYST | WEB PORTALS & CORE IDENTITY SYSTEMS

2021 - 2025

Brillix | Israel | Remote

- Analyzed and specified Web-based core Identity Management systems for Clalit Health Services, Migdal, Ayalon and LivePerson
- Wrote functional and technical specifications for self-service screens, approval flows, interfaces and data transformations
- Designed data structures, business logic, data mappings, scheduled ETL and synchronization jobs, and the interfaces behind the portal
- Led delivery across cybersecurity, DBA, DevOps, IT and business teams, through acceptance testing, implementation and support

SYSTEMS ANALYST | WEB SOLUTION, UX AND UI FLOWS

2020 - 2021

Tel Aviv-Yafo Municipality

- Led the analysis and design of a Web solution connecting municipal departments and automating cross-organizational workflows
- Gathered requirements from business users and modeled processes, data structures, user journeys and UX and UI flows
- Designed SQL and SSIS interfaces and coordinated users, development, DBA, QA and UAT

SYSTEMS ANALYST | CORE IDENTITY SYSTEMS

2017 - 2020

Amdocs | Israel

- Translated business and security requirements into technical specifications: processes, business logic, screens, interfaces and integrations
- Specified system workflows, data flows and data structures, and accompanied a Java and JSP Web team through implementation, testing and production delivery

SYSTEMS ANALYST & IMPLEMENTATION CONSULTANT | CORE IDENTITY PLATFORMS

2014 - 2017

ProLink Identity Management Architects | Israel

- Independently analyzed, customized and implemented the Aveksa Web platform for Harel, Migdal, Phoenix and Amdocs, at the application level
- Specified business logic, workflows, rules, approval screens, data mappings and scheduled synchronization jobs, and built the interfaces to enterprise systems, databases and directories
- Led testing, implementation and production support

SYSTEMS ANALYST | CORE BILLING SYSTEMS

2008 - 2014

Varonis | Israel

- Analyzed, developed and maintained a core enterprise billing system on Microsoft SQL Server, Microsoft Access and VBA
- Translated business requirements into SQL queries, reports, automations and system enhancements, and investigated production issues directly with finance and operations

TECHNICAL SKILLS

DATA AND INTERFACES: SQL, Microsoft SQL Server, PostgreSQL, Database Design, ETL, SSIS, Scheduled Jobs, REST APIs, Web Services

CORE SYSTEMS AND PLATFORMS: Salesforce, Priority ERP, Workato, Aveksa, IAM, IDM, IGA

DEVELOPMENT LITERACY: Node.js, TypeScript, JavaScript, Java, JSP, Supabase, Git

METHOD AND TOOLS: Agile, Jira, UAT, Claude, ChatGPT

EDUCATION

PRODUCT MANAGEMENT PROGRAM

Product Experts | 2021

B.SC. INDUSTRIAL ENGINEERING AND MANAGEMENT

Information Systems Specialization

Ben-Gurion University of the Negev | 2004 - 2008

MILITARY SERVICE

COMBAT SOLDIER AND COMMANDER

Combat Engineering Corps | 1999 - 2002
